HERBIVEDA - Evidence-Based Ayurveda
HERB CATALOGUE
Featured stock + full Ayurvedic herb reference

How Herbiveda works:
- Physician-reviewed product notes before publish
- Lab-tested batches; certificate of analysis on request
- Traditional use labeled separately from clinical evidence
- Wholesale: clinics, spas, retailers via trade.html

PART 1 - FEATURED HERBS (Herbiveda shop)

Ashwagandha (Withania somnifera)
Evidence: meta-analyses for stress/anxiety and sleep; extract quality matters.
Tradition: rasayana for vitality and adaptive resilience.

Turmeric / Curcumin (Curcuma longa, Haridra)
Evidence: large RCT meta-analyses on inflammation and joint comfort; bioavailability is the b
ottleneck.
Tradition: kitchen and classical medicine for skin and circulation.

Boswellia / Shallaki (Boswellia serrata)
Evidence: RCTs for osteoarthritis pain and function; boswellic acid standardisation matters.
Tradition: joint and musculoskeletal anti-inflammatory use.

Triphala (Amalaki + Haritaki + Bibhitaki)
Evidence: human data for bowel regularity and gut comfort.
Tradition: foundational gentle cleansing formula.

Shatavari (Asparagus racemosus)
Evidence: clinical work in lactation and women's wellness; smaller base than flagship herbs.
Tradition: women's rasayana and cooling nourishment.

Brahmi / Bacopa (Bacopa monnieri)
Evidence: RCTs for memory often after 8+ weeks; bacosides matter.
Tradition: medhya rasayana for intellect and calm.

Shilajit (purified mineral pitch)
Evidence: limited human data; heavy-metal testing is mandatory.
Tradition: rejuvenator for strength and recovery.

Trikatu (Pippali + Maricha + Shunthi)
Evidence: piperine/ginger digestion literature; formula is mainly traditional.
Tradition: kindles agni, reduces kapha sluggishness.

Neem (Azadirachta indica)
Evidence: antimicrobial angles; skin uses most practical.
Tradition: bitter cooling herb for skin clarity.

Fenugreek / Methi (Trigonella foenum-graecum)
Evidence: meta-analyses for glycaemic markers; LactMed lactation interest.
Tradition: digestion, metabolism, postpartum nourishment.

Valerian (Valeriana officinalis)
Evidence: trials for subjective sleep quality; extract type varies results.
Tradition: calming sleep herb (Western / allied).

Licorice / Yashtimadhu (Glycyrrhiza glabra)
Evidence: mucosal comfort; glycyrrhizin BP caveat - DGL when needed.
Tradition: demulcent rasayana for throat and voice.
